### Benchmark disclosure

The benchmark for this composite is the Bloomberg Barclays U.S. Intermediate Government/Credit Index. The index measures the performance of U.S. Dollar denominated U.S. Treasuries, government-related and investment grade U.S. corporate securities that have a remaining maturity of greater than one year and less than ten years. Index information is included merely to show the general trend in the market for the periods indicated and is not intended to imply that the portfolio was similar to the index either in composition or element of risk. The index is unmanaged, and an investment cannot be made directly into an index. Index returns do not reflect the deduction of advisory fees or any other fees or expenses. Index returns reflect the reinvestment of dividends, interest, and other earnings. Reinhart data is for a representative model account.
